**Subject:** SC Needs Uber

Please consider the population's safety when making your ruling regarding Uber. I have used Uber in Charleston since day one, and since then I have not used another Taxi or Limo service. I feel safe every single time I get in an Uber ride. I know the rate I'm going to be paying (unlike all the "limo" services that populate King St. and Market St. areas). Uber cars are ALWAYS clean, and they are always reliable. I don't know all the laws and regulations, but I do know that Uber is providing Charleston residents with a safe, affordable, and reliable ride share service. It is making Charleston roads safer and keeping drunk drivers off the road on a daily basis.

Thank you.

**Subject:** Legalize uber

Being a young adult uber has made my days off more enjoyable. I am now able to go out and have a good time and know that at a touch of an app I can have a safe ride home at an affordable rate. I have no intentions of ever getting in a cab as they cost too much and bussing is not an option. I believe I should have the right to ride with whom ever I want and pay them regardless of them having all of the documents you require.

To whom it may concern,

I am saddened and inconvenienced by the decision to cease Uber services in South Carolina. This week I'll spend at least a hundred dollars getting home from work or I'll have to put my friends and family out. It is too expensive to rely on a cab in my area and there is no bus that runs to my house or my town at all. I've recently started using uber and was thrilled that I felt safe and had affordable and reliable transportation. This week I'll start my work week stressed to the max, not knowing if I can afford a ride home and not knowing when I'll actually get to my house in one piece. Thank you for making this decision and ruining my peace of mind.

Sincerely,

Andra Harter  
Uber supporter
